

+Domovil

Reduced
mobility lift.

General Lifts.

The Domovil lift, which we ourselves manufacture, provides you with a smooth, reliable ride of up to 15 metres.

This is a **single-family hydraulic lift** with a reduced speed of up to 0.15 m/s, specifically designed for family homes and facilities in need of an accessible piece of equipment with a few stops, combining the smooth, quiet and comfortable benefits of a Familift with the low consumption of a Eulift.

+ General characteristics

Speed.	0.15 m/s.
Load.	From 250 kg to 400 kg.
Passengers.	From 2 to 5 people or 1 wheelchair plus a companion.
Range and max. n° of stops.	Up to 15 m. Up to 5 stops.
Traction.	Hydraulic.
Power supply.	Single-phase / Three-phase.
Useful surface area.	700 x 700 mm to 1400 x 1100 mm.
Motor power.	2.2 KW and 2.9 KW.
Hold-to-run with no cabin door. One touch for automatic doors with universal controls.	

+ Main advantages

No need for an engine room. Optional cabinet.
Minimum pit from 20 – 25 cm.
Very silent and comfortable. Sunken two-speed power unit.
Eco-friendly with low energy consumption. Ecolux automatic light switchoff system.
Maximum control throughout the process, from design to installation. Approved manufacturers.

+ Safety

Standard photoelectric barrier with automatic doors.

Wall mount type cabin telephone. Optional built-in telephone.

Cabin push-button panel: Alarm, Overload, Emergency, Shutdown key, Stop/ Open door in accordance with the type of door.

Emergency batteries in case of power failure without door opening system.

Approved access doors.

Immediate mechanical wedging in the event of a hypothetical breakage or loosening of suspension cables.

Anti-slip floor.

+ Options

Stainless steel tubular handrail.

A range of colours and types of floor for you to choose from.

1/2 or full mirror.

Location display in the cabin.

Switch cabinet and control panel.

Optional self-supporting structure (enclosure).

90° or 180° single or double boarding.

As manufacturers, we at **General Lifts** take care of the entire equipment production process, thereby eliminating intermediaries and providing major advantages:

Greater agility throughout the processes.
Less dependence on suppliers.

Quality in our products: first-hand knowledge of what our clients really need.

All this enables us to supply highly competitive equipment. Domovil is a low-speed lift that complies with the most rigorous standards of quality and safety, with Machinery Directive 2006/42/CE and Regulation EN 81.41.

Moreover, **it consumes a relatively low** amount of **electricity** and can be single-phase like household appliances.

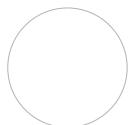

Specifically
designed for
single-family
homes, commercial
premises, offices,
educational centres...
